## President's Message

**Steve  
Knowles**

Dear Brothers and Sisters,

**I** hope this newsletter finds you and your families safe and well, as we enter this new year. It appears that we will come out of this pandemic in 2021. I know we all welcome that!

In retrospect the resilience of our Local and our membership is quite impressive. We have been under attack by this deadly COVID pandemic, yet Local 4 had the ability to adapt, achieve and overcome most barriers. Meetings went virtual, social distancing guidelines were presented and in some cases businesses were shuttered. Ultimately our jobsites were primarily uninterrupted as we were deemed essential workers. The construction workers literally kept the economy from collapsing!

Looking ahead most areas in Local 4 have reported work opportunities for the next year. Economic forecasts at this time claim a slight lull in work for 2021 and then a sharp rise in construction after the COVID lag dissipates.

The Statewide Uniform Agreement was negotiated and Chapter wage increases were collectively bargained along with benefit packages. It is always a tuff grind when our agreements are set to expire and new contracts need negotiated. Despite the challenges, the Management Committee along with Chapter Negotiators were able to

carve out record increases around the entire State and Louisville KY areas.

Our team is planning several upgrades to enhance member services. If you have received one of our new yearly timebook planners, you will notice it is specifically customized to getting important Local 4 and benefit funds information into the members hands. Additionally we have opened a web-store on most Chapter websites. We were running a trial with it and now we plan to expand all merchandise and open another competitor web store to where the membership can purchase many items with Local 4 INKY logos and craft affiliation options. I have always pushed for membership give backs and I will continue to do so.

The theme for the International BAC Convention last September was "Building Communities, Building Lives". We as an organization need to utilize our ability to promote ourselves in our communities. Make sure the leaders in our communities recognize the work we do as we build the schools, libraries, community centers, hospitals and factories. Make sure we engage in charitable activities within our communities. Make sure we share our knowledge of fair area wages and benefits. Make sure our communities know of our training programs. Afterall there are no higher skilled craftsmen on the planet than our BAC journey men and women! I personally will do all I can to promote Local 4 INKY here and within the International Union!

Lastly, I want to thank every member for their hard work, dedication and years of service to Local 4 INKY. Without you, we do not exist, I look forward to working with all of you!

**Scott Adams**  
*Bloomington  
Field Rep*

Greetings and Happy New Year to all,

**F**or those of you who do not know me, I am Scott Adams, the new field representative for the Bloomington Chapter. It is an honor and privilege to hold this position and represent you, the membership.

Work in the Bloomington area is doing well for this time of year: Rock Solid Masonry is finishing up at Tri North Middle School and has some small projects in the works; Wilhelm has the IU Student Housing Building, which is; a Market Recovery Project; Hagerman has the Parking Garage on 4<sup>th</sup> Street; Purdy LLC has several projects in the Bloomington area, McNutt Quadrangle, The Parking Garage on 10<sup>th</sup> Street and the Mathers Museum; Repp and Mundt is finishing up the County Garage near Petersville and the Apartments on State Rd 7, they also have a water treatment plant in Westport; South Eastern

Masonry is slowing down, but with some small projects in the works also. Bruns and Gutzwiller has a school in Plainfield and recently picked up a jail in Henry County.

There are some jobs coming up for bidding, the Lehigh project has not awarded contracts as of now.

Ivy Tech is building a new building in Columbus, in Austin they are going to be building a new school. Neither job has been bid.

Going forward into summer, the outlook is promising as some other school work may be coming out for bid in the summer.

\$1.65 will be our next raise on June 1<sup>st</sup>, before allocations.

Be safe and I hope to see you soon.

*Tom Bruns and Tony Gutzwiller accepting 75 year plaque in honor of Ralph Bruns.*

---

## Evansville Chapter

**Matt Singer**  
*Vice Chairman*  
*Ft. Wayne*  
*Field Rep*

**L**et me start by informing you of the new Evansville Chapter officers.

Rodney Powers: Chapter  
Chairman

Joe Konermann: Recording Secretary

Mike Seibert: Sergeant-at-Arms

It will be a pleasure to work with these members.

Turning to work in the Evansville Chapter, we had a particularly good summer which I'm sure you already know, but it has continued into the winter. We do have a few of the contractors that are slow right now, however, most members are working. Some of the bigger jobs that have been completed or are will soon be completed are USI, the Aquatic Center, and two water treatment plants, one in Evansville and the other in Owensboro. Two other nice jobs were the Indiana highway department and Digestive Care Center. All of these are just the highlights.

Moving on to what we have going on right now or very soon. The two biggest projects are two new Schools in Kentucky, one in Henderson, and the other in Owensboro.

These two projects should run for many months. The maintenance work at the aluminum plants in our area continue to be steady. With two furnace rebuilds coming late winter or early spring. Tile and Terrazzo has not been too bad, but we have had slow periods. The outlook seems to be good for this year.

I know we haven't been having our chapter meetings the last few months, but I hope that that will end soon.

In closing, I would like to thank all the members for letting me serve as your Field Rep for all these years it has been a privilege.

Brother

Matthew Singer

**Dave  
Murray**  
*Vice Chairman  
Indianapolis  
Field Rep.*

**I** hope that everyone had a great holiday season. Work in the Indianapolis Chapter in 2020 was terrific. All trades had great years. The work outlook for 2021 is incredibly good, but maybe not as good as last year.

Wilhelm will be at the Indianapolis Criminal Justice Center for a few more months. This job produced a lot of man hours with plenty of overtime.

Don Purdy Masonry continue to be busy as they will be back at Bankers Life Fieldhouse, as well as several other projects.

Purdy LLC will be starting the Hendricks County Jail project sometime in the spring.

Iwanski Masonry from Chicago has projects at Lawrence North High School and Zionsville High School.

Complete is doing the Avon Schools (several School projects).

We are anticipating work to start on the new IU (Methodist) Hospital this spring. This is a \$1.8 billion project that will be done in 4 phases with a completion sometime in 2021. The artist rendering shows a lot of glass on the exterior, but we anticipate a lot of man hours from this.

2021 looks to be a great year for the PCC's as well. All PCC contractors have said they have

plenty of work on the books.

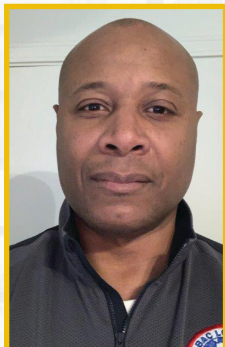

I would like to take a moment to congratulate Ted Champ on his retirement. He was an exceptional leader for Local 4 and improved the organization in ways too many to mention. Thank You Ted and enjoy your well-deserved retirement!

Please do not hesitate to call with any questions or concerns. I want to encourage everyone to utilize the BAC Cares Health Clinic at the Hall. Former President Champ worked extremely hard to get the clinic in Indianapolis. It was the first BAC clinic, and we need to use it, or it could go away.

### **Journeyman Upgrades:**

Patrick Pickering (PCC), Josh Loar (PCC), Bryan Edison (PCC), Mike Carey (RE), and Josh Kirby (RE).

## Fort Wayne Chapter

**Glenn Head**  
*Vice Chairman  
Ft. Wayne  
Field Rep.*

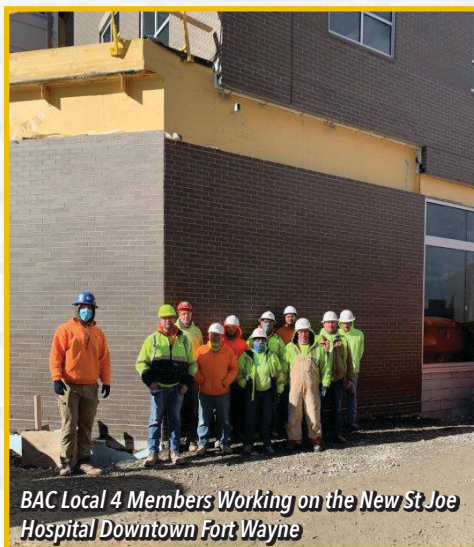

I hope you and your family are doing everything you can to stay safe and healthy as we get through this pandemic.

This is going to be a great year for our members. There will plenty of work for all crafts, Pointer Caulker Cleaners needed for Trisco, Atlas, and Weigand at Electric Works equals at least 70 members, and Homestead will need 40 Bricklayers as well.

Starting January 1, 2021 apprentices will start at 60% percent of journeyman's wages

(\$18.61). So, if you know of anyone interested in bricklaying please have them get ahold of myself or Dan Flores 574-320-6369. Also, School to Work opportunities for anyone at least seventeen years of age in the summer months.

*Electric Works Weigand Foreman Chris Gibson, Steve Yochum, Trisco Restoration Foreman Rob Davis, Job Stewart Cole Burklund and Glenn Head*

*BAC Local 4 Members Working on the New St Joe Hospital Downtown Fort Wayne*

*Hot Crew Refractory pouring Tundish, Members Rob Logan, Donald Studebaker, Ron Woodward, Chad Wells, David Smolek, Owners Mike Davis, Craig Davis*

## Construction Projects in the area:

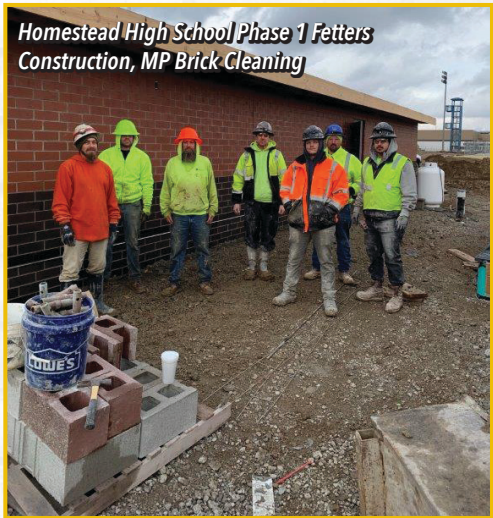

Homestead Phase 1, Lutheran Hospital Downtown FW, Fox & Main Hotel (tile), Kelly Cadillac, Amazon, Huntington Jail, Dupont Sports Med, **Upcoming work 2021** - Homestead Phase 2, Electric Works, Price Elementary Second Phase, Waynedale Elementary, Promenade Mix Use Bldg, New Parking Garage, Parkview Randallia (tile), Lindley Elementary School, Carroll Renovations, Noble Co Annex, Dekalb, Crendent Wealth, Eye Ambulatory Surgery.

The local pension started out very rough for us but finished with a genuinely nice allocation gain of 9.68%. Our trustees and investment consultants did a nice job considering that fact the stock market hit record lows last year.

Chapter Election Results: Chapter Chairman Glenn Head - Recording Secretary Stefanee Ochoa - Sergeant at Arms Dennis Snider - Negotiating Committee Fred Moore, and Tom McBride.

*Tile Class Jesus Ramirez, Javonta Gatson, Alberto Gonzalez, Instructor Roger Harmon, Erik Hargrove, Elias Perez, Leonor Andreda*

*Homestead High School Phase 1 Fetters Construction, MP Brick Cleaning*

## Chapter Meeting is the 2<sup>nd</sup> Monday of each month "New time is 5:30 PM".

As we deal with Covid 19 please wear your mask if you decide to attend. Stay safe and if you need anything, please do not hesitate to call.

Fraternally,  
Glenn Head

---

## Indianapolis Tile

**Tim  
Spaulding**  
*Voice  
Zone II Tile Rep.*

**F**irst, I would Say WHAT A YEAR. It has been some trying time to say the least. 2021 is here and I am looking forward to better times. For those of you that have suffered from COVID-19 or have suffered a loss our prayers are with you and your families. We have had to canceled chapter meeting hoping to protect as many as we can. Several of local 4 meetings Staff/ Management have been conducted virtually as well as the pension board meetings. Things in general are operating smoothly considering.

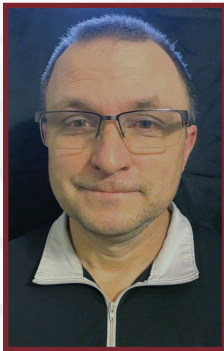

Work is plentiful in the area. Hours are up, there has been a lot of overtime with some extremely aggressive schedules on project over the past year. Manpower is at a great demand and we are doing everything we can to organize nonunion workers. Over the past year the International has been extremely aggressive in training some innovative ways of Organizing and Communicating with nonunion workers. So as always if you know of someone looking for work please let us know. A few large projects are finishing up and several are just starting. By the time, this newsletter is in print the new Marion County Criminal Justice Center will be under way. This project will generate a lot of man hours for Tile Setters, Finishers and Terrazzo workers. It looks like all the planning and preparation has taken place on the New IU,

old Methodist Hospital project. Hopefully we will be having a groundbreaking later this year. This will be a Billion Dollar project phased in over the next Five Years. We believe the work forecast looks good for 2021.

This last year has been incredibly challenging for the Apprenticeship program. We had to cancel classes earlier this year. We are trying to take every precaution we can. The classes were reopened, and we are checking temperatures before entering the training center, spreading apprentice out in the classroom, sanitizing surfaces. Wearing face masks. Installing hand sanitizing stations. We are committed to keeping our apprentices safe. I would like to thank our apprentice instructor for their hard work and dedication.

This pandemic has disrupted all our lives in one way or another. In Indiana (construction workers) are considered essential workers and you are able to work. We at Local 4 would ask that you would wear a mask and practice social distancing on the job site as best that you can if not only for your safety but for others as well. As always if you need anything please do not hesitate in calling me. My hope is that 2021 will be a better year for all of us.

Fraternally:  
Tim Spaulding

**Shannon  
Turner**  
*Lafayette  
Field Rep.*

**G**reetings and here is to hoping all of our members had a great holiday season. As we enter the New Year here in the Lafayette Chapter work in the area looks to be steady throughout the spring and into the summer months. As of this writing all our members are working.

The Contractors here in Lafayette are working on quite a few projects around the area. JSM is completing the final touches at Loeb Stadium and currently working at West Lafayette H.S., McCutcheon H.S., The Career Center in Lafayette as well as at the Engineering and Polytechnic Gateway at Purdue. Hagerman is at Purdue as well working on the Purdue Veterinary Medicine Teaching Hospitals along with The NEW Group who are doing the waterproofing on this project. Building Services Inc. is staying busy around the area. Kingery and Sons is currently working at Columbia Park on the Carousel. Ziolkowski is in Frankfort working on a Water Treatment Plant. Purdy LLC is looking at coming back into the area this spring on an addition at Harrison H.S. F.A.Wilhelm will also be working on the West Lafayette Library expansion this coming summer, as well as the Hagle Hall Building Project at Purdue.

Here in Lafayette, we held our Chapter Officer Nominations in October and I would like to announce the following. Chapter

Chairman- Shannon Turner, Recording Secretary- Justin Carr, Sgt. at Arms- Chris Stoker and on our Negotiating Committee are Ronald Neal and Jeremiah Slater.

This past October we were able to hold our yearly Apprenticeship contest at the Indianapolis Training Center, we had Carlos Bugarin who is currently working for Ziolkowski compete in the 1<sup>st</sup> year group, He build an exceptionally fine project and just missed a podium finish. In the 3<sup>rd</sup> year group, we had Apprentice Marcos Gonzalez who is currently with JSM, He took home the top prize in this group! Great job gentlemen.

We have a wage increase coming up June 1, 2021 of \$1.60, we will have an allocation meeting for this at the March or April Union meeting, look forward to seeing members and getting their input on this matter, remember it is your \$\$.

I would also like to mention that this past fall we had an opportunity to work with the Abby and Libby Memorial park in Delphi and were able to lay block for their upcoming restroom and concession buildings. We are looking at the possibility of also in conjunction with the Apprenticeship Program helping them when they are ready to put up some dugouts for their ball field as well.

## Louisville Chapter

**Dustin Reinstedler**  
*Vice Chairman*  
*Louisville*  
*Field Rep.*

Brothers and Sisters,

**C**urrently the Louisville Chapter is looking pretty good. Before I go any further, I want to thank all of you for not only carrying on through Covid as essential people but also for doing it with the safety and professionalism that BAC is known for.

As far as work, at this moment we have zero members laid off but I don't think we are seeing the same amount of overtime and demanding schedules as we saw in the past few years. I will note that we have some huge projects on the horizon in our Chapter. Most notably, the Veterans Administration hospital which is valued at just under one billion dollars with masonry expected to run for 3 years. We also have seen great success in helping and organizing bricklayers in Bowling Green Kentucky. There are many people down there that stepped up and went above and beyond to help and to join the union. We also have signed a new contractor there and have negotiated with another.

This fall, we had our Chapter elections which resulted in some new members to our leadership.

Thank you to the members who ran and who showed up to vote. Our Chapter Chairman remains the same, Mr. Ratliff. Our Recording Secretary remains the same, Mr. Hendrix. We do have a new Sergeant at Arms, Mr. Goers. I also would like to thank Kyle Reinstedler and Daniel Theiler for joining our Negotiating Committee, Election Committee, and Trial Board.

In contract news, TMT contracts are up for negotiations this spring and the brick agreements are in the first year of three. The most notable changes to the brick agreement were that we no longer start new apprentices out at 50%. New apprentices in Louisville now start at 60% with full benefits. This was agreed upon by contractors and the union in hopes that we could attract and retain better candidates for our training program. Also, our raises in this contract were \$1.50, \$1.60, \$1.75.

Lastly, I hope everyone continues to stay safe and healthy and that 2021 gets back to normal.

In solidarity,  
Dustin T. Reinstedler

## Merrillville Chapter

**Jeremy Rivas**  
*Field Representative*  
*Secretary/Treasurer*

**2** 020 was one heck of a ride for all of us but we got through it together. Despite COVID, work remained good in the Merrillville Chapter. 2021 looks like it could be another good year, but no one can ever truly predict.

As a Chapter and Local, we must work towards gaining more market share in all divisions of our Union; Brick, TMT (tile, marble & terrazzo), PCC (pointer, caulker & cleaner) and Refractory. This should include industrial, commercial, and residential construction along with shop work.

Our Chapter Pension and Health Benefit Funds remain strong along with the Annuity. All active eligible Chapter members now have access to their Health Reimbursement Account.

For those of you that are not aware, Cleveland-Cliffs purchased all ArcelorMittal plants here on the lake front. Our hope is that it will be business as usual with respect to being 'Yellow Card' sites.

'Thank you' to active members who continue to move the Chapter and Local forward. We truly are stronger together and I wish everyone a prosperous and healthy 2021.

Congratulations to our apprentices who competed in the State Apprentice Contest:

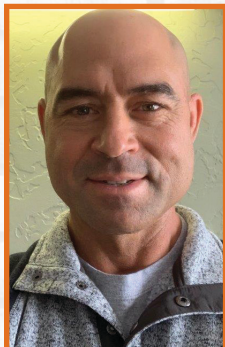

1<sup>st</sup> Year - Doug Stamper – 2<sup>nd</sup> Place

2<sup>nd</sup> Year - Alex Mendoza – 1<sup>st</sup> Place

3<sup>rd</sup> Year - John Williams, III – 3<sup>rd</sup> Place

**Merrillville Chapter Union Meetings @ 7pm the 2<sup>nd</sup> Tuesday of every month.**

## Muncie Chapter

**Patrick Rowles**  
*Muncie Field Rep*

**A**s the world turns and we put another trip around the sun in the book, I look at some of the events that took place and I have more pride in this membership than ever before! A year ago at this time the contractors had as much work scheduled to perform as we have had in a long time. We were looking at how we were going to address the challenges of BAC Craftworker shortages and how we were going to supply enough skilled members to perform the amount of work needing done. Just as we felt like we had a good game plan to incorporate COVID 19 came and created a whole new set of problems and challenges. We were fortunate enough to be considered essential workers, the contractors needed to continue with their projects and YOU as BAC Craftworkers showed up each and every day possible to perform that work. YOU as members, our Leadership, and the Contractors proved more than ever how durable and dynamic we are and will continue to be. By proving that you were a valuable and dependable resource we were able to partner with the IMCA and negotiate some of the best wage increases and contract language over the next 3 years that we have seen.

Work is still very good and looks favorable going forward. We have had some very nice projects being built in the past year along with one of them being a Market Recovery

job (4.5 million in masonry) that continues to prove that the program is a great tool for us to continue to grow and gain market share.

I would like to give Congratulations to President Ted Champ on his well deserved retirement, and thanks for his dedication and leadership to this organization. I would also like to congratulate new President Steve Knowles and Secretary Treasure Jeremy Rivas as they take the reins and lead us to a very promising future. I want to say thanks to our new Chapter Officers for their willingness to serve: Chapter Chairman Cole Smith, Recording Secretary Chaz Jewell, Sergeant-at-Arms Paul Folkner, along with Negotiating Committee members Bo Ely and Aaron Swoveland. I would like to congratulate Trystin May for winning the 2020 Gerald Kusek Outstanding Apprentice Award and also upgrading to Journeyman.

### Upcoming Events:

Statewide Apprentice Contest will be March 23-25, 2021 at the Indianapolis Training Center

Muncie Chapter Union Meeting are on the 3rd Wednesday every month. Times very based on work hours.

I encourage each of you to stay up to date on the State Legislative session. A couple things to look at right now are HB 1234 and HB 1114.

In closing "Challenge yourself to be the best you that you can be! Do something today that will make you a better you tomorrow!"

Fraternally,  
Patrick Rowles

## South Bend Chapter

**Kevin McClanahan**  
South Bend  
Field Rep.

**H**ope everyone had a safe and happy holiday season especially with everything that happened in 2020. With that being said, the membership was able to stay fairly busy last year and that is also extending into 2021 with a mild winter so far. Going forward work looks like it is going to be a pretty good this Spring with work at Notre Dame, the South Bend Library, Culver Military Academy, Logansport and the Kokomo area where these jobs will take us through winter and into Spring. Our PCC contractors have slowed up a little because of the weather with work looking good for the Spring and our Tile Contractors are getting busy with projects that got started late because of Covid shutdowns and not being able to get material.

Tile negotiations will be going on this year as our contract expires on May 31, with Jason Swartz and Walter Bartz as representatives on the negotiation committee. If you have any thoughts on money or language, please let us know.

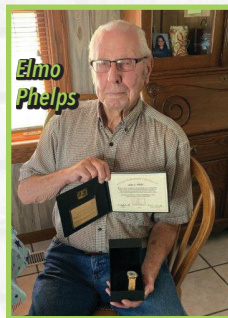

On the apprentice side we are still taking applications for our next hands-on and interviews which will start on March 15<sup>th</sup> and 16<sup>th</sup> so if you know of anyone wanting to be a Bricklayer please have them call me or get on the website Bac4training.com to get an application and get started.

If you think that you have a service award

coming please give me a call as I send letters and a phone call to make contact to give the member their pin or gold card. I have a few in my office waiting to go out. If someone has moved and you think that they have a service award coming please let them know to contact me 574-320-6376.

I would like to remind everyone that our Union meetings are on the 2<sup>nd</sup> Wednesday of the month at 6pm and hopefully we can start to have them on a regular basis as things get back to normal and hopefully we can get back to having our Retiree Breakfast meetings.

Lastly, I want to thank all the members who have been working hard and safe and showing up through this pandemic and difficult times to produce a quality product to be proud of. I am optimistic by the members that we are bringing in and the growing number that attend union meetings and also call to check on members and their families that may be going through tough times that this will make us much stronger when this is all over. The support for one another has been overwhelming and very much appreciated. THANK YOU.

---

## Terre Haute Chapter

**Robert  
Thomas**  
*Terre Haute  
Field Rep.*

**F**irst and foremost I'd like to thank the BAC members that are out there working through the COVID19 pandemic. It's tough enough working in the heat, the cold, in the mud, and any condition that most people would want no part of. Then along comes COVID and workers and contractors have had to adapt and take extra precautions. But we're going to get through it, that's what BAC members do.

Work in the Terre Haute Chapter has been very good. It is now January and we are still close to full employment with some members working in adjoining chapters. While COVID hasn't stopped current projects, it is sure to make things slow down some. At the time of writing this article it is unclear if state and local governments, universities, school corporations, etc can afford to fund projects. I am optimistic that the new Congress and Biden administration will work on infrastructure bills to boost the construction industry and improve our government buildings, schools, highways, etc.

Current projects in the area include the new Vigo county jail, VA clinic, Highland Retina eye clinic, Owens Hall at St. Mary of the Woods College restoration, Dreiser Hall (ISU) renovation and Deaconess clinic in Petersburg. Upcoming work includes the Terre Haute Convention Center, THPD

police station, Hard Rock Casino, Petersburg wastewater plant. We're moving in the right direction.

We have new chapter officers for 2021. John Foradori decided to step down as chapter chairman. John has always been very active in the union and was an officer for over 20 years. Words cannot express my gratitude and respect for him. Thank you John. John Wrin is now the chapter chairman, Bryan Barton- recording secretary, Neil Vanatti- Sergeant at Arms. Congratulations to the new officers, and thank you for being involved. As you know, negotiations last year went very well. The membership got the raises they deserve and earned. June 1<sup>st</sup> we will have a \$1.60 raise, next June will be \$1.80.

Congratulations to Kevin Vinardi for winning the first year apprentice contest in October. He will move on to compete in Las Vegas this June. Justin Klaiber built a very nice project in the 3<sup>rd</sup> year competition and represented Terre Haute very well. Both of these young men are very good craftsman, show up every day and have a great attitude. They will do great things.

Fraternally,  
Robert Thomas
